

Making it happen.

The most effective business relationships come with partnership. Two companies working together to achieve the best result.

But how **hard** is it to find a high-end maintenance partner who will do that? A group of people who will work with you and keep their promises to you.

A partner who will actually deliver and pro-actively take on the responsibility of the logistics of a project. Looking after the details which will make your project **smooth and effective**.

From what we hear, it's very hard.

Not for our clients though. That's not a concern they have.

End to end solutions.

The NeroQom Squad takes care of every logistical need for the projects we undertake. We'll ensure that our Squad is with you, with their equipment, rested and ready to start at the agreed time, every time.

But logistics are about more than that.

We also **take care** of the financial consideration of looking after your account. Keeping your account with us to-date and making sure you're clear on where everything is.

Beyond this, we also handle stock and product management for you, including:

- *Purchasing of specific products*
- *Packing & handling*
- *Shipping locally or internationally*
- *Storage & warehousing*

Whatever you need from the Squad,
we're ready to take up the challenge.

Leave it with us.

Purchasing a stock of products not only lets you respond to needs quickly but is also more cost-effective. But, once you've bought them from us, where do you keep it all?

That's where our Storage Discipline comes in. NeroQom will happily store and distribute products which you've purchased from us for you. So, if you want to buy some graffiti remover or temporary protection from us, then we'll hold onto it for you and send it out to your locations as and when you tell us to.

Our Squad will handle the safe packing and shipping as and when you let us know you need it. Shipping **worldwide** if you need us to.

We'll also keep you up to date with the remaining inventory, so you know when you need to order some more...

**then we'll store that
for you too.**

What do we deliver?

Now you know we can get our Squad to you and distribute products as well; the next question is... well... what can we do it for?

That's where the NeroQom Discipline Menu comes in. This is our comprehensive list of the products and techniques which we can deliver to you so that you can experience new every day. Arranged in Operations, Processes and the Materials they're for, you'll find everything you need for perfect **high-end maintenance** there.

If you'd like to know about them, then check out the latest, up-to-date list right here:
