

We've got Accessibility covered.

The maintenance of prestigious buildings and superyachts is often a complex process. Not least because even safely accessing the whole project can be a challenge.

When it comes to completing maintenance, access should be **safe, efficient and matched** to the job. No matter where it needs to be done, there are effective, non-damaging accessibility options available.

We have solutions to give our Squad access:

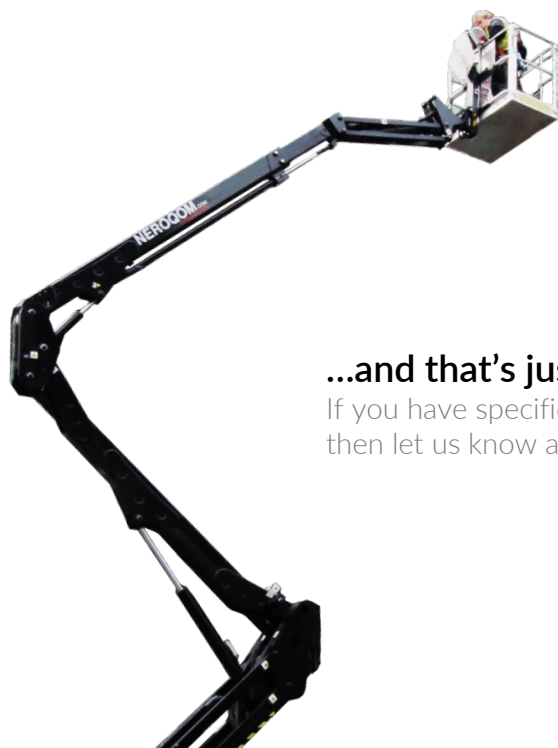

- *Over water*
- *At heights*
- *In tunnels*
- *Indoors / Outdoors*
- *In gardens*
- *Everywhere around bridges*
- *Near roads*
- *Around rails*
- *On pavements*

That's why when you're picking a partner for it's crucial that they have the skill, experience and knowledge to access your project and complete the work. Any mistakes or inexperience at this point will give poor results, damage to your project or even potential injuries.

What can NeroQom do?

We know that the right accessibility option is a must for successful maintenance. That's why we have a **huge range** of accessibility options available to us. The Squad is trained and experienced with a comprehensive range of equipment and techniques including:

- *Building Maintenance Units (BMUs)*
- *Motorised Elevating Work Platforms (MWEPs)*
- *Other Elevating Work Platforms (EWPs)*
- *Ropes & harnesses*
- *Steps*
- *Ladders*
- *Scaffolding*
- *Rafts*

...and that's just the short list!

If you have specific accessibility requirements or equipment needs, then let us know and we can help.

What do I need to do?

We understand that accessibility can be a complicated irritation. That's why we take care of every part of it. For your convenience and our safety.

**We'll plan,
source any permits &
bring our own equipment.**

We have a range of professional qualifications including **IPAF** and **IRATA** but, if we need more, we'll get ourselves trained to the standard you require and the project needs.

We'll also let you know of any implications of our equipment whilst working with you to avoid any damage from its use. The plan is always to complete a job safely...

**...and to leave nothing
but great results when
we're done.**

Which services can be delivered in this way?

NeroQom has a **huge number of different Disciplines** which we offer, many of which can be done, customised if needed, from a rope, MWEP or BMU.

So, it's probably easier that you let us know what you need us to do and we'll plan it from there.

Take a look at our website.
