

## Process Techniques

### What we do may look like magic, but it's down to the range of techniques and products described in our Disciplines.

The Process Technique Disciplines describe the 'how' of what we do. They cover many of the pre-treatment and preparatory techniques which NeroQom® has available.

#### #010 NeroQom® Blast:

In some cases, you need a more intensive solution to remove contamination or prepare for future treatments. When you do, have a range of different compounds to blast with will ensure that you get the best results.

##### #010-1 NeroQom® Dry Ice Blast

*Dry ice enables the Squad to clean without water and without leaving residue, the same great results without the mess.*

##### #010-2 NeroQom® Precision Blast

*The Squad has various compounds to blast with which can be used on specific surfaces to deliver the results you need.*

##### #010-3 NeroQom® Sand Blast

*When you need an intensive solution, we can customise our sand blasting recipe to get the job done.*

##### #010-4 NeroQom® Dry Ice Fusion Blast

*We blend dry ice with different media as we blast to customise the results to your needs and surface. This Discipline uses advanced blasting technology to deliver results you won't believe.*

#### #020 NeroQom® Coating Application:

Protect, restore and restyle your surfaces with a new coating application.

##### #020-1 NeroQom® Coating Application Upgrade Protect

*Extend the life of your surfaces by applying a new, upgrade layer of protection.*

##### #020-2 NeroQom® Coating Application Restore

*The finish of coated surfaces can be damaged or will degrade over time. We will apply a new coating to restore the character of your coated surface including colour, gloss-rate, hardness, thickness and unique finishes.*

##### #020-3 NeroQom® Coating Application Restyle

*When it's time for a change, our coating restyle will change the character from colour to finish of your surface to your taste.*

##### #020-4 NeroQom® Coating Application MediProtect Upgrade

*Using our Liquid Guard technology, upgrade your surface with a long-lasting antimicrobial coating which kills 99.9% of a range of viruses, bacteria, fungus and mould. Liquid Guard can be applied to most surfaces and will remain effective even after repeated cleaning.*

## **#030 NeroQom® Graffiti:**

Remove and minimise the impact of graffiti wherever it occurs with our range of professional Disciplines.

### **#030-1 NeroQom® Graffiti Care Clean**

Remove difficult graffiti from more sensitive surfaces. One of our most powerful solutions, it always gives great results.

### **#030-2 NeroQom® Graffiti Clean**

Effectively and efficiently remove graffiti from a range of surfaces with our market leading techniques.

### **#030-3 NeroQom® Graffiti Clean Pro**

For only the most stubborn or deep graffiti, Clean Pro handles the toughest challenges to give you the best results.

### **#030-4 NeroQom® Graffiti Shadow Remover**

If cleaning graffiti leaves a shadow behind, our active solution will remove them and leave your surface flawless.

### **#030-5 NeroQom® Graffiti Wipes**

Perfect for quick cleans over small areas, our graffiti wipes are as effective as they are convenient to use.

### **#031-1 NeroQom® Graffiti Permanent Protect**

The perfect solution for areas prone to vandalism. Once applied, this hard-wearing coating will protect your surfaces and make removing graffiti fast & easy.

### **#031-2 NeroQom® Graffiti Semi-permanent Protect**

For delicate surfaces, this will protect your surface from spray paint and come off with the graffiti.

## **#040 NeroQom® Preparation:**

You know what they say, failing to prepare is preparing to fail! That's not a mistake we'll make.

### **#040-1 NeroQom® Core Prep**

We start off in the right way by completing a thorough, deep clean of your surface to remove contamination.

### **#040-2 NeroQom® Renovate Prep**

When the surface has been compromised by scratches, chips, dents or corrosion, we'll sand and fill your material as needed.

### **#040-3 NeroQom® Restore Prep**

If your surface has been damaged with poor or incorrect products, such as wax or coatings, the Squad will remove it before we apply the right solution.

### **#040-4 NeroQom® Surface Prep**

When you need a new paint or coating, we will apply a primer to your surface to ensure the best finish.

## **#050 NeroQom® Site Services:**

Flexibility is key with our site services. These will be used when you need our Squad to complete a range of Disciplines or when you need to see how we work.

### **#050-1 NeroQom® Day Rate Projects**

When you need flexibility our day rate will give you access to the Squad when and how you need it.

### **#050-2 NeroQom® Test Day Performance**

For more unique and unusual projects, it may be necessary for the Squad to show you what we can do and give you some options of result. We call these visits our Test Days.

## **#060 NeroQom® Temporary Protect:**

No matter the surface, no matter the situation, we have a range of protection options to take care of it.

### **#060-1 NeroQom® Temporary Protect**

Flexibly applied liquid temporary protection which will dry to provide a layer of protection. This layer will be applied to the thickness and strength you need.

### **#060-2 NeroQom® Temporary Protect Pro**

Liquid temporary protection which we can adjust the character of to match your needs, including different colours, hardness, fire-resistance, anti-corrosion and much more.

### **#060-3 NeroQom® Temporary Protect Squad Site**

Using a range of specialist methods, we will isolate our work area to prevent damage or contamination.

### **#060-4 NeroQom® Temporary Protect Solid**

Available with a variety of characteristics including colours, different levels of transparency and thickness. From boards to carpets to films, these are flexible and hard-wearing temporary protection solutions.

# NeroQom®
