

GRAFFITI

UNDER CONTROL.
FAST, EFFECTIVE RESULTS.

A Modern Menace.

Travel through any city, town or village and you'll find it. Graffiti is a modern plague on our cities, with beautiful facades and historic monuments smeared in paint. Some might call it art, others vandalism. We see work that needs our attention.

NeroQom's expert Graffiti Squad has the experience and product suite to effectively cure graffiti issues.

It doesn't matter what the surface is, we have a non-damaging and proven solution to get the job done.

It'll take us less time to take it off than it did for the vandals to put it on.

Our **Graffiti Disciplines** give rapid results on all forms of vandalism, not just spray paint. We can tackle any type of damage even ink or acid, we'll make it disappear. We offer a range of different methods including mechanical, chemical, wet and dry options, to handle any issue.

But which ever we use, rest assured it **won't damage** the material or the environment.

Beyond Removal.

When we've restored your investment, no-one will be happier to see it than the "artists". We all know they love a blank canvas.

Unfortunately for them, our work gets removal completed in record time. We also provide **anti-graffiti protection** which works.

With our protection Disciplines in place, the graffiti becomes even quicker to remove and does less damage whilst its there. More importantly research has shown that quickly removed vandalism reduces repeat attacks.

After all, if it's going to be gone the next day, what's the fun for them? All they've done is wasted time and money on paint!

Effective graffiti removal.

It takes more than enthusiasm to get the best results. You need the most effective combination of products and techniques to make them happen.

But which should you use?

There are many graffiti removal products on the market. They're all the best. They all promise results.

NeroQom has spent a long time researching, testing and developing the products we use.

Every single one has been proven to work in our testing and then in the **real-world**. We base our recommendations on results, not pretty marketing or cheap prices.

Our graffiti removal range offers a fully customisable suit of options to suit any surface, any environment and to get the result you need. **So, let's meet the family.**

#030-2 NeroQom® Graffiti Clean

A deceptively simple product. Apply, wait and rinse off. The graffiti is gone.

*Only a very intelligent product can be this **easy**.*

*Suitable for porous surfaces and biodegradable, Graffiti Clean is **intensely effective** in the hands of our trained specialists.*

#030-4 NeroQom® Graffiti Shadow Remover

Removing graffiti used to leave shadows of the damage behind. Not any more.

*It doesn't matter if it's a stone wall, concrete or a bridge, this biodegradable **shadow remover** will remove every trace of the vandalism.*

No shadow, it'll be like it was never there.

#030-5 NeroQom® Graffiti Wipes

Quick, simple, effective. *Our graffiti wipes will remove paint, ink and chalk from hard surfaces.*

Safe for use on traffic signs, mailboxes, polycarbonate, PVC, coated surface and many more materials.

These little magic cloths have been winning industry awards across the globe for years!

Restoring the view of your glass.

Graffiti takes many forms, it's not just a criminal with a spray can. We've seen the lasting damage which can be done with acid, especially on glass. That's where our experienced understanding of not only the damage but also the material comes to bear.

We've been fighting this type of damage for a long time. That's enabled NeroQom to develop a suite of **effective solutions** which don't exist anywhere else.

*Vandalism is vandalism,
what ever form it takes,
we've got the Disciplines
to deal with it.*

We will not only remove surface damage, but also remove deep, aggressive contamination and scratches from your glass.

Our **world-class specialists** will analyse the substrate and guide you to get the best possible result.

Using our exclusive combination of techniques, equipment and products, we'll turn back the clock so it's like the damage was never there.

The first line of defence.

Once we've removed all the paint, resolved all the scratches and taken off the acid, what next? We all know they won't give up. They'll be back.

That's where our **Graffiti Protection Disciplines** save the day. We offer semi-permanent and permanent protective coatings for most materials. Which ever you choose, your surface will instantly become resistant to graffiti making removal happen in record time in future.

Our **Semi-Permanent Protect Discipline** is a removable, anti-graffiti solution. Protecting your surface from all types of contamination, not only graffiti. It also deals with posters and fliers illegally applied to your surfaces by reducing the effectiveness of glues.

Quick to apply, this Discipline includes a colourless finish, so you'll never know it's there.

If you need something longer lasting, we have **Graffiti Permanent Protect**. This treatment will completely seal your surface, whether it's porous or non-porous, whilst still making it breathable. Once complete your surface will be resistant to repeated graffiti attacks as well as moisture, heavy contamination, erosion and much more.

We know we've got a lot of products and options, so, if you're not sure which Discipline is best for you, our experts will work with you to recommend the perfect solution.

#031-1 NeroQom® Graffiti Permanent Protect

Features:

- Surface becomes very easy to clean
- Effective even when cleaned repeatedly
- Seals your surface completely
- Hard wearing
- Colourless

Protection for:

- All surfaces, porous and non-porous

#031-2 NeroQom® Graffiti Semi-permanent Protect

Features:

- Makes graffiti easy to remove
- Protects against fliers and posters
- Creates an easy clean surface
- Quick to apply
- Colourless
- Permeable to water

Protection for:

- Delicate materials
- Historic monuments
- Facades damaged by:
 - Acid rain
 - Sand blasting
 - Air pollution

Blast it off.

Sometimes you need more. That's why our graffiti specialists come equipped and trained to use the **latest in blasting equipment**.

Unlike older systems, we can use a closed system including vacuum, cleaning up their mess as they go. A much more modern, discrete and tidy way of bringing the most powerful results.

We offer a **dry-blasting, mobile system** which can clean graffiti and other contamination. Even on the more delicate materials, this equipment gets the job done, even on wood.

Specialist blasting is the perfect solution for busy areas where you can't afford to make a mess. That includes in airports, train stations and marine environments.

#010 NeroQom® Blast

Tackles the **toughest jobs** including:

- Graffiti
- Contamination
- Rust
- Lacquer removal
- Texturing a surface
- Stone cleaning

If you'd like more information on the range of graffiti control options we offer, contract options, a **free quote** or consultation then drop the NeroQom Graffiti Squad an email today and we'll be happy to help.
