

## Results delivered with care.

Managing a prestigious building is a complex task, especially when it comes to maintenance. You not only need to consider the environment and surrounding area, but the materials your project are made from can be deceptively **fragile**.

That said, the nature of your building means that it always needs to be in the best possible condition.

How do you balance the need for the best results with the reality and requirements you have on your shoulders?

It can be tough.

Using the wrong solution can see you failing to meet your obligations or, even worse, damaging the building you're meant to care for. Finding a partner who **understands** your needs and can deliver results is essential.

*That's why  
you need  
NeroQom.*

## Under control.

NeroQom's Precision Blast Discipline provides the **highest level** of control and customisation that we offer. A gentle cleaning method which delivers fantastic results without compromising the surface of your project.

Based on customised blasting, Precision Blast will handle large areas with **care** whilst **removing** the worst contamination completely.

We use the finest media to give an unrivalled quality of clean on **detailed** areas. It doesn't matter how fine the detail is, our Discipline will deliver an unrivalled clean.

Precision blast is **perfect** for any surface including:

- Stone
- Wood
- Aluminium
- Stainless Steel
- Steel
- Coated Surfaces

If you need to renovate a piece of history,

**this is the perfect solution to get the job done without impact.**

## The Power of Technology.

NeroQom is known for using the latest technology and Precision Blast is one of our finest. Using **game changing** technology, this Discipline delivers results which other companies only dream of.

Our Squad are trained experts in using this **unique technology**. They must be, this isn't just something you can just pick up and use.

Our **specialists** apply a specially chosen media at low pressure to create the desired impact. Carefully and completely removing every sign of contamination from your surface.

Once complete, all you'll see is **great results**. How good is that?

## Answers to every problem.
