

Process Techniques

What we do may look like magic, but it's down to the range of techniques and products described in our Disciplines.

The Process Technique Disciplines describe the 'how' of what we do. They cover many of the pre-treatment and preparatory techniques which NeroQom® has available.

#010 NeroQom® Blast:

When you need a more intensive solution to remove contamination or prepare for future treatments, we have NeroQom Blast Disciplines. We have a range of different compounds, machines and techniques to blast with which will ensure that you get the best result.

#010-1 NeroQom® Dry Ice Blast

Dry ice enables the Squad to clean without water and without leaving residue, a great result without the mess.

#010-2 NeroQom® Dry Ice Precision Blast

We blend dry ice with professional compounds as we blast to customise the results to your needs and surface. This Discipline uses advanced blasting technology to deliver results you won't believe with minimal residue.

#010-3 NeroQom® Precision Blast

The Squad has a range of professional compounds to blast with which can be used on specific surfaces to deliver the results you need.

#010-4 NeroQom® Sand Blast

When you need an intensive cleaning or preparation solution, we can customise our sand blasting recipe to get the job done.

#020 NeroQom® Coating Application:

Restore, restyle, upgrade and protect your surfaces with a new coating application.

#020-1 NeroQom® Coating Application Restore

The finish of coated surfaces can be damaged or will degrade over time. We will apply a new coating to restore the character of your coated surface including colour, gloss-rate, hardness, thickness and unique finishes.

#020-2 NeroQom® Coating Application Restyle

When it's time for a change, our coating restyle will change the character from colour to finish of your surface to your taste.

#020-3 NeroQom® Coating Application Upgrade Protect

Extend the life of your surfaces by applying a matching coating with an upgrade layer of protection.

#030 NeroQom® Coating Prep:

You know what they say, failing to prepare is preparing to fail!

That's why the NeroQom Squad is trained with a full range of coating preparation Disciplines. These include pre-cleaning, primers, removal of waxes and old coatings, sanding and filling. Each makes sure we get the best finish by starting your job with professional preparation.

#030-1 NeroQom® Coating Prep Pre-clean

We start off in the right way by completing a thorough, deep clean of your surface to remove contamination.

#030-2 NeroQom® Coating Prep Primer

When you need a new paint or coating, we will apply a primer to your surface to ensure the best finish.

#030-3 NeroQom® Coating Prep Removal

If your surface has been damaged with poor or incorrect products, such as wax or paint, the Squad will remove it before we apply the right solution.

#030-4 NeroQom® Coating Prep Sand & Fill

When the surface has been compromised by scratches, chips, dents or corrosion, we'll sand and fill your material as needed.

#040 NeroQom® Graffiti:

Minimise the impact of graffiti wherever it occurs with our range of removal and protection Disciplines.

#040-1 NeroQom® Graffiti Removal

Effectively and efficiently remove graffiti from a range of surfaces with our market leading techniques.

#040-2 NeroQom® Graffiti Removal Maintain

Remove difficult graffiti from more sensitive surfaces. One of our most powerful solutions, it always gives great results maintaining the condition of the material underneath.

#040-3 NeroQom® Graffiti Removal Pro

For only the most stubborn or deep graffiti, Clean Pro removes the toughest challenges to give you the best results.

#040-4 NeroQom® Graffiti Removal Wipes

Perfect for quick cleans over small areas of specific materials, our graffiti wipes are as effective as they are convenient to use.

#040-5 NeroQom® Graffiti Shadow Removal

If cleaning graffiti leaves a shadow behind, our active solution will remove them and leave your surface flawless.

#041-1 NeroQom® Graffiti Permanent Protect

The perfect solution for areas prone to paint vandalism. Once applied, this hard-wearing, permanent coating will protect your surfaces and make removing graffiti fast & easy.

#041-2 NeroQom® Graffiti Semi-permanent Protect

For delicate surfaces, this will give semi-permanent protection to your surface from spray paint and come off when the graffiti is removed leaving it ready for the protection to be reapplied.

#050 NeroQom® Site Services:

Flexibility is key with our site services. These will be used when you need our Squad to complete a range of Disciplines or when you want to see what we can achieve.

#050-1 NeroQom® Site Services Day Rate

When you need flexibility, our day rate will give you access to the full Discipline Menu when and how you need it. It's truly expertise on demand.

#050-2 NeroQom® Site Services Test Day

For more unique and unusual projects, we'll use these test days to show how we work, establish timelines and give you a demonstration of results.

#051-1 NeroQom® Site Services Supervision

If your project needs regular or constant site visits, then this is how we do it. Whether it's for reviews, quality control, management or documentation, we're there to get it done.

#060 NeroQom® Temporary Protect:

No matter the surface, no matter the situation, we have a range of protection Disciplines to take care of it.

#060-1 NeroQom® Temporary Protect Liquid Membrane

Flexibly applied liquid membrane for temporary protection which will dry to provide a layer. This coating will be applied to the thickness and strength you need.

#060-2 NeroQom® Temporary Protect Liquid Membrane Pro

Peelable temporary protection with our liquid membrane which we can adjust to match your needs. This includes different colours, hardness, fire-resistance, anti-corrosion and much more.

#060-3 NeroQom® Temporary Protect Solid

Available with a variety of characteristics including colours, different levels of transparency, fire-resistance and thickness. From boards to carpets to films, these are flexible and hard-wearing temporary protection solutions.

#060-4 NeroQom® Temporary Protect Squad Site

Using a range of specialist temporary systems including masking, taping and tents, we will isolate our work area to prevent damage, contamination and so everyone else can keep working around us.

#070 NeroQom® Vinyl Wrapping:

Change the look and finish of a surface easily by applying a vinyl wrap.

#070-1 NeroQom® Vinyl Wrapping

Wrap your surface to change the look, renovate or protect it with versatile, long-lasting vinyl film.

NeroQom®

#080 NeroQom® Wash:

The cornerstone of maintenance. Giving your building or superyacht a good wash can be the first step to you experiencing new again.

#080-1 NeroQom® Check-up

Wash We'll give everything a wash and check-up on the condition of your project as we go.

#080-2 NeroQom® Microfiber Wash

Anywhere water can't go, we'll wash with our range of microfiber cloths.

#080-3 NeroQom® Reverse Osmosis Wash

A clean using a professional brush and demineralised water. This is a shower which gives a streak-free result.

#080-4 NeroQom® Wash

A wash, making it wet and dry. The Goal? A professional wash.

#080-5 NeroQom® Wash Pro

A wash with something extra. We'll change the character of water to give you a unique result; a deeper clean, ongoing protection or whatever you need.

#090 NeroQom® Waterpower Clean:

It takes advanced equipment and a skilled professional to get a result which lets you Experience New every day.

#090-1 NeroQom® Hot Waterpower Clean

Our Squad will use variable heat and pressure technology to get even more out of water to clean your surfaces.

#090-2 NeroQom® Jet Waterpower Clean

Variable jet pressure is the ideal way to clean your surfaces, depending on what you need and our ADAPTS review.
